*SMALL, COMPACT DESIGN FOR TIGHT SPACES*

**E17** | 17" WALK-BEHIND SCRUBBER

# E17 | PRODUCT FEATURES

The E17 is a compact disc brush scrubber with a 17" cleaning path and is available in brush drive or traction drive. Advanced technology makes the E17 a part of the innovative walk-behind scrubber line, the E Series. Easy-to-understand controls ensure that the machine is simple to operate. The compact and sleek design results in total operator comfort by focusing on ergonomics and provides an excellent line of sight to the area to be cleaned. The adjustable handle and ergonomic hand bails offer superior handling of the machine and the traction drive models offer ergonomic, adjustable speed regulation with the turn of a dial. The E17 contains an on-board charger that is convenient and allows the machine to be charged anywhere. When the on-board charger is plugged in, the machine is not operable. The brush loading/unloading is as easy as the turn of a switch and the operator never has to manually remove the brushes. A parabolic squeegee is standard on the traction drive models and an option on brush drive models. The squeegees are designed so that no operator adjustment is necessary. This vacuum contains 12 gallon solution tank and a easy-to-clean, hygienic, 13 gallon recovery tank.

## GREEN FEATURES

SOUND LEVEL < = 70dBs

TOOL FREE BRUSH REMOVAL

TOOL FREE SQUEEGEE REMOVAL

ONE BUTTON OPERATION

MAINTENANCE FREE GEL BATTERIES AVAILABLE

## E17 TECHNICAL DATA

Cleaning Path Width	17"	Vacuum Flow	65 cfm	Brush RPM	180 RPM
